

JOB
VACANCY

Technical Writer

Enterprise Software

ETL Solutions Ltd (ETL) provides data integration solutions to clients across industry sectors and we are seeking an experienced Technical Writer to help drive our success. The successful candidate will be based at our office in Bangor, North Wales.

We are looking for a Technical Writer to work on a contract basis. The candidate will be required to produce professional standard user documentation for our existing product. The candidate will be updating existing documentation and retargeting it to a new problem domain with the emphasis on reducing the learning time for users. The candidate will be provided with access to developers and consultants who can provide the technical knowledge.

This is a senior role for a highly motivated individual which requires at least three years' commercial writing experience preferably in a technical field with an emphasis on technical documentation for commercial enterprise software.

This is an excellent opportunity for the right individual and we are looking for someone with fresh ideas and a strong personality who can make a big impact on our company and help us achieve our ambitions for growth. The compensation package will reflect the seniority and importance of this role.

Essential Skills

- Proven technical writing skills
- Ability to communicate well with technical developers
- Understanding and/or familiarity with programming

Desirable Skills

- Knowledge of document control systems
- Knowledge of database systems

About ETL

ETL Solutions was founded in 2002 to solve complex data integration problems.

Using our Transformation Manager software platform, we improve data integration productivity with a faster, and more cost efficient solution than conventional methods.

TM has been used successfully in Automotive, Finance, Geoscience, Aerospace and Defence, Supply Chain sectors and amongst the SAP user community. Clients include Honda, Thorn Lighting, JP Morgan and ExxonMobil.

We are based at the Technium Centre for Advanced Software Technologies in Bangor, North Wales.

Next Steps

If you are interested in this role, please send your CV, an example of your work and details of current rates and availability to hr@etlsolutions.com.

Initial interviews will be held by telephone followed by a meeting where appropriate.

No agencies please.
